

Waste diversion

Glåmdal Interkommunale Renovasjonsselskap IKS is responsible for planning, carry into effect and further development of the waste collection in Eidskog, Kongsvinger, Sør-Odal and Nord-Odal.

You are a subscriber with us if you have a home or cottage in one of the four municipalities we cover. Non-recyclable waste is collected every 14th day. Glass and metal packaging will be collected on the scheduled days when necessary. Paper and household plastics are collected every 4th week. Containers and plastic bags must be ready for pickup before 06:00 on scheduled day. You can find the scheduled days in our waste collection calendar. We have a recycling centre in each municipality. Here you can deliver all kinds of waste during opening hours.
